CURRENTLY ASSIGNED TO - Tammi Neblock in Community Development  
DESCRIPTION - The home owner is building a retaining wall and has building materials stored on the public tract between the houses that is not his. There are no plans with the county or the city on this wall and it will affect the stability of my yard, and the walking path to the south. There should be something where he cant store building materials or use the green area for personal use for his firepit as its not his land but the cities. He believes he owns it.
